	LEGACY <input type="checkbox"/> MODERN <input type="checkbox"/>	
	BOTH <input type="checkbox"/>	
<p>Navy records serviced by another agency are written to DCPS using Navy Business rules. The payroll system has code in place to prefix the standard 5 character Navy UIC with a zero to meet the six character UIC size requirement in DCPS. The insertion is done based on "servicing" agency rather than "owning" agency so cross serviced records are not updated with the DCPS required zero prefix. All actions transmitted with the VALID 5 character UIC reject at DCPS because of the UIC.</p>		

<u>WORKAROUND:</u>	<u>PERSONNEL</u> <input checked="" type="checkbox"/>	<u>PAYROLL</u> <input type="checkbox"/>
<p>Payroll Regeneration capability must be used to regenerate each transaction processed on Navy records serviced by other than Navy. The regenerated transaction will be modified to reflect a six character UIC, prefixing the real five character value with zero.</p>
